## 2023 Ottavino Grüner Veltliner

Alfaro Family Vineyard, Santa Cruz Mountains

The Austrian variety Grüner Veltliner excels at Richard Alfaro's vineyard in the Corralitos area of the Santa Cruz Mountains AVA. Situated less than 5 miles from the Pacific Ocean, the site enjoys sandy soils, and a maritime-influenced climate allowing for a long ripening period. The resulting wine is full of bracing acidity, but also showcases a variety of citrus, stone fruits, and a distinct spice that is the hallmark of this food-friendly variety.

Brilliant lemon-green, the 2023 Ottavino Grüner Veltliner displays intense aromas of white peach, mandarin orange, and spicy ginger. Medium bodied with brisk acidity, this Grüner is begging for food. Enjoy it with a simple salad of little gems, herbs, and a squeeze of lemon or with delicious spicy fried Indian snack ,chakli, to name a few! Drink now and over the next 5-7 years.

### Details:
